

Department of Oncology Safety Personnel

The Department of Oncology constitutes approximately 120 members of staff and postgraduate students based in 11 geographical sites:

- CBCRU - Cambridge Breast Cancer Research Unit
- CCTC - Cambridge Cancer Trials Centre (S4 Block & Coton House)
- CUTRCT - Cambridge Urology Translational Research & Clinical Trials (Norman Bleeahan Offices)
- CMDL - Cancer Molecular Diagnostics Laboratory (Clifford Allbutt Building)
- CRUK CI - Cancer Research UK Cambridge Institute
- Clinical Oncology (R4 Block)
- Hutchison/MRC Research Centre
- JCBC - Jeffrey Cheah Biomedical Centre
- SRL - Strangeways Research Laboratory
- WSI - Wellcome Sanger Institute

Our Departmental Health and Safety Committee acts in an advisory capacity to the Head of Department and is responsible for the production, review, performance and monitoring of the implementation of the Departmental Safety Policy, which is developed in accordance with the University's Safety Policy.

Our Departmental Health and Safety Committee acts in an advisory capacity to the Head of Department and is responsible for the production, review, performance and monitoring of the implementation of the Departmental Safety Policy, which is developed in accordance with the University's Safety Policy.

The Committee includes a representative from each of our main sites; it does not include representatives from the CRUK Cambridge Institute, Jeffrey Cheah Biomedical Centre and the Wellcome Sanger Institute, as health and safety management of our staff located in these sites is formally devolved to their local health managers, due to the very small numbers of Oncology personnel based within these sites.

Your local representative will be able to answer any health and safety related questions for the site where you are based. If you have any health and safety issues or concerns, you should contact your local representative or Departmental Safety Officer (DSO) for advice. If you have an accident, incident, or near miss, you should contact the DSO as soon as possible, as they are required to submit a report form to the University's Safety Office.

Details of key health and safety staff:
